

The Cardiac

Lynnwood Police Department Motor Unit

Designed by Doug Saint-Denis

- Baseline Start to End is 120'
- All measurements are right and left of the baseline. The anchor and pivot cones are the only cones measured. Fill cones will have to be placed in line with the anchor cones.

Cone	Distance on baseline	Distance	Left or Right of baseline
1.	0	1'6"	R
2.	0	1'6"	L
3.	4'6"	1'3"	R
4.	4'6"	1'3"	L
5.	9'2"	1'3"	R
6.	9'2"	1'3"	L
7.	12'6"	1'3"	R
8.	15'4"	0	L @ 45 degrees (see pic)
9.	22'6"	18'	L

Lynnwood Police Department Motor Unit

Designed by Doug Saint-Denis

How cones are measured (Except #8, #17, & #26)

Measure from the baseline right or left to the inside center of the anchor cone.

Cone #8, #17, & #26 are placed on the baseline, like so.

■ Anchor / Pivot Cones

□ Fill Cones

NOTE: This pattern can be setup to be more challenging by adjusting the flat-line cones from 1'6" to 1'3". This pattern was setup and test ridden with a 2009 Harley Davidson Road King.
